DOB: 18-01-2001

Results-driven Software Developer with over 2+ years of experience specializing in React.js and modern web technologies. Proven track record in enhancing user experience and reducing project size by 30% through efficient frontend development and optimization techniques. Adept at translating design concepts into efficient and user-friendly code. Seeking to contribute expertise in HTML, CSS, JavaScript, and modern frameworks to a dynamic development team.

EXPERIENCE

Dec 2022 – Present

Software Development Engineer at HRlytics, Bengaluru

- **Developed and maintained dynamic frontend interfaces** using React.js, improving the user experience and responsiveness of the platform.
- **Developed and integrated modular child React projects** with a main application, reducing codebase size by 30% and improving loading times by 20%.
- **Integrated RESTful APIs** and optimized frontend data handling to deliver real-time insights and features.
- **Collaborated closely with backend and testing teams** to ensure seamless integration and accurate implementation of features.
- **Designed and implemented efficient state management solutions** using Redux and Context API for scalable application development.
- **Contributed to the deployment** and monitoring of the frontend applications, ensuring high availability and prompt issue resolution.
- **Mentored junior developers**, guiding them through modern frontend technologies and best practices.

Sep 2022 – Dec 2022

Product Engineer at Amphisoft Technologies, Coimbatore

- Led a team of Backend Content developers in designing and implementing complex web applications.
- Collaborated with stakeholders to gather requirements, conduct code reviews, and ensure the scalability and performance of the software.

EXTRA-CURRICULAR ACTIVITIES

- Contributed to open-source projects on GitHub, focusing on bug fixes and feature enhancements in JavaScript libraries organized by Kings Engineering College.
- Engaged in a webinar on the application of AI techniques in smart grid systems, organized by KPR Institute of Technology.

EDUCATION

BE Computer Science and Engineering

Sudharsan Engineering College,

Pudukkottai

June 2018– May 2022 CGPA-7.15

HSC

T.E.L.C Higher Secondary School

June 2017 – May 2018

Percentage - 60

SSLC

June 2015 – May 2016

Percentage - 79

SKILLS

- **Frontend:** HTML, CSS, JavaScript, ReactJS (Proficient)
- **Backend:** NodeJS, MongoDB (Intermediate)
- Java
- Python (Intermediate)
- C (Proficient)
- GIT
- OpenAI
- AWS (Intermediate)

CERTIFICATIONS

- I completed a 3-month certification the course at Ebox, enhancing my coding skills in C, Java, DBMS, JDBC, HTML, CSS, JavaScript, React, and Python (intermediate level).
- The course included various categories like programming fundamentals, web development, database management, and API integration, with hands-on projects and assessments to ensure practical learning.
